Planning Overview: Using *Scope* Throughout the Year

Scope is a flexible resource that can fit into many classroom settings, whether you're using it as a core resource or as a supplement to your ELA program. You'll receive your class set of magazines two to three weeks before each issue date; at the same time, you will be able to access the wealth of online support materials that accompany the issue so you can start planning around specific articles and stories.

The number of days per week you teach with *Scope* is up to you. Depending on how many features you cover and which activities you assign, you might use *Scope* one or two days per week or all five. PACING CALENDAR AND RECOMMENDED TEACHING ACTIVITIES: NARRATIVE AND LITERARY NONFICTION

Suggested Time: 6-8 days (based on using *Scope* during a 60-minute block per day)

Day 1: Preparing to Read

*Watch a Video**

- Watch the issue's **nonfiction video*** to provide historical context, build background knowledge, highlight key vocabulary, and engage students. The issue's video may take students behind the scenes with the author, transport students to the article's time and place, or allow students to follow the author through the research, writing, and editing process.
- Complete the **Video Discussion Activity**. These discussion questions pertain to central ideas and details; author's purpose; and consideration of the narration, visuals, and music in the video.

Preview Vocabulary

- Project the **Vocabulary Definitions**. They may be in the form of an audiovisual slideshow or a glossary. Hear the words and definitions read aloud at Scope Online.
- Follow up with the **Vocabulary Activity** to practice using the words that are highlighted in bold in the article.

Day 2: Reading and Discussing

Read the Text

- Set a purpose for reading by calling on a volunteer to read aloud the **As You Read box** on the first page.
- Read the text through shared, guided, small-group, or independent reading. (Use the **audio read-aloud** of the text to provide support for struggling readers or as a listening comprehension activity for your whole class. Alternatively, use the **lower-Lexile version** of the article as a scaffold for reading the **on-level version**. Note: We recommend students read the article two to three times.)

Unpack the Text

- After reading the article, go back to the text to reread, analyze, and delve deeply into sentences and paragraphs with the **Close-Reading Questions**. This can be completed as a class, in small groups, or individually.
- Discuss the **Critical-Thinking Questions** as a class or use them as constructed-response prompts.

*As available

Days 3-4: Skill Building: Featured Skill and Core Skills Workout

Day 3: Featured Skill Activity

- Distribute the **Featured Skill Activity** and have students complete it in small groups.

Day 4: Core Skills Workout (Optional)

- Based on your students' needs after completing the Featured Skill Activity, use any or all of each issue's **Core Skills Workout*** activities to build proficiency in key analytical reading and test-readiness skills. Note: For most Core Skills activities, we provide two versions—with more and less scaffolding—for differentiation. Skills for nonfiction include text features, summarizing, central ideas and supporting details, inference, text evidence, text structure, tone, and mood.

Days 5-6: Writing Task

Day 5: Respond to the explanatory, argumentative, or narrative writing prompt

- Using the Featured Skill Activity as a guide, invite students to respond to the writing prompt at the end of the article.

Day 6: Revise and edit writing

- Have students revise and edit their responses to the writing prompt, consulting with you and/or in partnerships.
- Alternatively, encourage students to submit their work to the writing contest.

Days 7-8: Comprehension Quiz and Extension Activities (Optional)

- Have students take the **interactive or non-interactive reading comprehension quiz**. We form these quizzes based on state assessments. Quizzes come in higher and lower levels and include six selected-response questions and two constructed-response questions. The answer key lists the main ELA skill tested in each question, so the quizzes can be used for formative or summative assessment.
- Alternatively, use suggestions in the Teacher's Guide or at Scope Online to guide students through an extension activity, such as completing a research task, reading related texts, or creating a video, slideshow presentation, museum exhibit, or timeline.

**Identify Nonfiction Elements (Optional)*

Another option is to use our scaffolded **Read, Think, Explain Activity**, which provides reinforcement of all skills from our **Core Skills Workout**. In just two 60-minute blocks, you can read the article and use this activity to develop students' nonfiction reading skills and strategies and prepare them for higher-level thinking questions and class discussion. The "Before Reading" section of this scaffolded activity invites students to look at the photos, read the captions, headline and subheads, and make inferences before reading the article. In the "During Reading" section of the activity, students delve into skills such as mood, tone, text structure, and inference. The "After Reading" section directs students' focus to central ideas and details and to writing an objective summary. Our **Glossary of Nonfiction Terms** serves as a helpful reference for this activity and an excellent resource that students can use all year.

PACING CALENDAR AND RECOMMENDED TEACHING ACTIVITIES: FICTION

Suggested Time: 5-6 days (based on using *Scope* during a 60-minute block per day)

Day 1: Preparing to Read and Close Reading

Preparing to Read

- Complete the **Theme Anticipation Guide** and share responses to activate prior knowledge, build curiosity, and ready students' minds for the themes they will encounter in the text.
- Set a purpose for reading by calling on a volunteer to read aloud the **As You Read box** on the first page.

*First Read: Get to Know the Text**

- Read the story once through as a class.
- Go online to find the **audio read-aloud** of the text to provide support for struggling readers or as a listening-comprehension activity for your whole class.
- Distribute the **DIY Vocabulary Activity**. Have students find three to seven words in the story that are new to them, or whose meanings they are not sure about. Students should record each word and the page number where it appears, then write what they think the word means based on context clues. Then have students look up the word in a dictionary and write down its definition. Finally, they should use the word in a sentence.

Second Read: Unpack the Text

- Divide students into groups to read the story again, pausing to discuss the **Close-Reading Questions** in the margins or on the handout at *Scope Online*.
- Discuss the **Critical-Thinking Questions** as a class or use them as writing prompts.
- Return to the **Theme Anticipation Guide**. Have students reread the statements and reflect on the following in writing or in a class discussion: Did your experience with the text influence your opinions about each statement, perhaps by confirming your beliefs, challenging them, or causing them to shift? How do the statements apply to the story?

*Note:

For fiction, close-reading questions are printed in the margins on the pages of every issue's story, prompting students to delve deeply into specific sentences or paragraphs in the story. Our questions model close-reading questions that students can ask themselves as they read any work of fiction. The answers can be found in the Teacher's Guide. We recommend that students read the story through at least one time before answering the close-reading questions. That way, they can focus on basic comprehension before going deeper. With our text-based questions, students will gain a deeper understanding of the text; uncover layers of meaning; make inferences; analyze the author's purpose; and reflect on how words, sentences, and paragraphs contribute to the larger work.

PACING CALENDAR AND RECOMMENDED TEACHING ACTIVITIES: DEBATE ESSAY KIT

Suggested Time: 1 day (based on using *Scope* during a 60-minute block per day)

Preparing to Read

- Give students a minute to preview the text features—the headlines, illustrations or photos, any charts or graphs, etc. Ask students what they think the article is about.
- Project the **Vocabulary Definitions**. They may be in the form of an audiovisual slideshow or a glossary. Hear the words and definitions read aloud at *Scope Online*.
- Follow up with the **Vocabulary Activity** to practice using the words that are highlighted in bold in the debate.

Reading and Text Marking

- Read the debate once through as a class.
- Project the article. Complete the following steps as a class, modeling text marking on your whiteboard while students mark their magazines:
 1. Using a red colored pencil, draw a star next to a sentence that expresses the main argument (central idea) on one side of the debate.
 2. Underline the details that support that main point.
- Divide students into groups and have them repeat steps 1 and 2, but for the other side of the debate and this time using a blue colored pencil.
- Next, ask students to discuss the following in their groups: Do you think the writer shows bias—that is, a preference for one side of the debate or the other? Explain and support your answer with text evidence.
- Have students fill in the “Yes/No” chart in their magazines using the details they underlined in the text.

Debate

- Have students divide themselves into two groups according to which side of the debate they agree with more, the “Yes” side or the “No” side. Have the groups stand on opposite sides of the room.
- Students can then debate the issue: One student offers a reason (support) for his or her opinion; a student from the other group then offers a counterargument.
- Students should quietly walk to the other side of the room if at any point during the debate they change their position on the issue; be sure to ask any student who does this why he or she did so. Encourage students to use evidence to support their opinions.

Writing

- Have students work individually to complete the **Essay Kit guided-writing activity** to write an argument essay supporting their points of view. Students can use the **Argument Essay Checklist** to evaluate and edit their essays.

- For struggling readers: Instead of assigning the Essay Kit, ask students to write one paragraph in which they state their opinion and three reasons that support it.
- For advanced readers: Before holding the classroom debate, ask students to find and read two other articles on the topic. Students should come to class prepared with a list of their sources plus at least one item of support for each side of the debate.
- Visit Scope Online for **additional extension resources** that bring in other articles to deepen the conversation.

PACING CALENDAR AND RECOMMENDED TEACHING ACTIVITIES: DEBATE SCAVENGER HUNT

Suggested Time: 1 day (based on using *Scope* during a 60-minute block per day)

Preparing to Read

- Give students a minute to preview the text features—the headlines, illustrations or photos, any charts or graphs, etc. Ask students what they think the article is going to be about.
- Project the **Vocabulary Definitions**. They may be in the form of an audiovisual slideshow or a glossary. Hear the words and definitions read aloud at Scope Online.
- Follow up with the **Vocabulary Activity** to practice using the words that are highlighted in bold in the debate.

Reading and Text Marking

- Read both texts once through as a class.
- Ask: “No matter what you personally think about the issue, which author do you think makes the better argument?” Take a poll and tally the results on the board.
- Project the first text. For this text only, have students complete the Scavenger Hunt box at the end of the article, modeling text marking on your whiteboard while students mark their magazines. Or print and distribute the **Scavenger Hunt: Analyzing Arguments graphic organizer** to help students develop their arguments. Note that a lower-level version of the graphic organizer that does not include counterargument is available.
- Have students complete the Scavenger Hunt box in the magazine and/or the **Scavenger Hunt graphic organizer** for the second text in small groups.

Discuss

- As a class, discuss the question at the end of the **Scavenger Hunt**: Who makes the stronger argument? Then ask:
 1. What do the authors agree about? What do they disagree about?
 2. How do the images support each author’s argument?
 3. What is each author’s tone? Explain your answer.

Debate

- Divide students into groups according to which author they think makes the best argument. Have the groups stand on opposite sides of the room.
- Students should then debate: One student offers a reason (support) for his or her opinion; a student from the other group responds.
- Students should quietly switch sides if at any point during the debate they change their position on the issue; be sure to ask any student who does this why he or she did so. Encourage students to use evidence to support their opinions.
- At the end of the debate, compare the number of students who support each author with the number who supported each author before the debate.

Writing

- Have students work individually to complete the **Essay Kit guided-writing activity** to write an argument essay supporting their points of view. Students can use the **Argument Essay Checklist** to evaluate and edit their essays.
- Visit Scope Online for **additional extension resources** that bring in other articles to deepen the conversation.

PACING CALENDAR AND RECOMMENDED TEACHING ACTIVITIES: SHORT READ

Suggested Time: 1 day (based on using *Scope* during a 60-minute block per day)

Preparing to Read

- Project the **Vocabulary Definitions**. They may be in the form of an audiovisual slideshow or a glossary. Hear the words and definitions read aloud at Scope Online.
- Follow up with the **Vocabulary Activity** to practice using the words that are highlighted in bold in the article.

Reading and Discussing

- Read the article as a class. Alternatively, you can play the **audio read-aloud** while students follow along in their printed issues.

Completing the Activity

- Have students work in small groups to complete the activity at the end of the article. They will write a claim, find a piece of text evidence, and explain why that evidence supports their claim.

Writing

- To go deeper, use the **Short Write Kit** at Scope Online. Project the **How to Answer a Constructed-Response Question handout** and review it as a class. Then have students work on their own or in groups to complete the self-guided writing activity **Constructing a Response**.
- Have students use their completed activities to craft their own constructed responses.

Comprehension Quiz

- Have students take the **higher- or lower-level reading comprehension quiz**. We form these quizzes based on state assessments. Quizzes includes four to six selected-response questions and one to two constructed-response questions. The answer key lists the main ELA skill tested in each question, so the quizzes can be used for formative or summative assessment.

SCOPE AND SEQUENCE: THE LAZY EDITOR

PACING CALENDAR AND SUGGESTED TEACHING ACTIVITIES: THE LAZY EDITOR

Suggested Time: 1 day (based on using *Scope* during a 60-minute block per day)

Preparing to Read

- Set a purpose for reading by calling attention to the featured skill printed in the upper left corner of the first page.

Reading the Article

- Read the article once through as a shared, guided, or independent reading.

Skill Building: Help the Lazy Editor

- After students read the article, follow the prompts in the “Help the Lazy Editor” box to find sentences within the text that highlight the featured grammar skill. This can be completed as a class, in small groups, or individually.
- After finding mentor sentences containing the featured grammar skill, have students think about the different ways the skill is used. Then have students write some rules for the skill based on their observations.
- Next, using the rules they just created, have students edit the last paragraph of the article, in which the Lazy Editor forgot to fix some mistakes.
- Last, have students write their own paragraph using the featured skill. If using the Lazy Editor as a mini-lesson for writing workshop, students can then apply the featured skill to revising their own compositions.

Additional Practice (Optional)

- Use the **Grammar Scavenger Hunt** activity at Scope Online. In this activity, students mine articles throughout the magazine for more mentor sentences that highlight the featured skill.
- Use an **additional skill reinforcement activity** at Scope Online.

PACING CALENDAR AND RECOMMENDED TEACHING ACTIVITIES: “YOU WRITE IT” INTERVIEW

Suggested time: 1 day (based on using *Scope* during a 60-minute block per day)

Reading the Interview

- Give students a minute to preview the **You Write It: Interview**. Prompt students to use the headline, subhead, and central image to identify the topic of the interview.
- Break students into groups to read each section of the interview and discuss what they find interesting, surprising, or convincing.
- Reconvene as a class and ask volunteers to summarize the central idea and supporting details from the interview. Have a volunteer read aloud the writing prompt at the bottom of the page. Brainstorm examples of central ideas (or central claims) that could be used.

Modeling the Text

- If your students need additional support, project the **Annotated Model Text** or the **Non-Annotated Model Text** and review together first.

Writing

- Distribute the **Turning an Interview Into an Article** guided writing activity. This activity guides students to choose a central idea for their articles, paraphrase each question-and-answer pair from the interview, and choose sentences from the interview that they will use as quotations in their articles.
- Using their responses from the guided writing activity, have students write a three-paragraph article about the inspiring student using these guidelines:

Opening Paragraph:

- Your first sentence should be a hook—that is, it should grab the reader’s attention. One option is to state something that is surprising, interesting, or moving. What detail from the interview did you find most interesting?
- Let readers know what the article is going to be about. In other words, state the central idea of the article.

Body Paragraph:

- Explain to your readers what the inspiring student’s experience was like, using information from the question-and-answer pairs you summarized.
- Summarize the most important ideas presented in the interview. Each idea you include should support the central idea that you wrote.
- Don’t forget to include the direct quotes you chose.

Conclusion:

- Wrap it all up. End your article with a strong sentence that will give your readers something to think about. One option is to end with a quote. Another is to refer to your hook from the opening paragraph.
- An entry form is available online if students would like to enter the **You Write It contest**.
